Rushindra Bandaru

Aspiring AI/ML Engineer | Generative AI • Machine Learning • Python
| Google Cloud & AWS | Building Real-World AI Systems
Bhopal, Madhya Pradesh, India

Summary

I am an Integrated M.Tech Computer Science student specializing in Artificial Intelligence, focused on building intelligent systems using Generative AI, Machine Learning, and Data Science. I don't just learn AI — I apply it to solve real-world problems. I have hands-on experience developing AI-powered applications using Python and Google Cloud, including: • Generative AI applications using Gemini and Streamlit • Multimodal AI systems using RAG pipelines • Predictive modeling using BigQuery ML • Prompt engineering and LLM optimization in Vertex AI My work revolves around building practical solutions such as AI chatbots, automation tools, and data-driven systems that improve usability, efficiency, and decision-making. Through certifications from Google Cloud, Microsoft, AWS, and industry simulations (Deloitte, JP Morgan, Tata), I have developed a strong foundation in applied AI, cloud computing, and scalable system design. I am particularly interested in: • Generative AI & LLM-based applications • Multimodal AI systems • AI-powered automation • Cloud-based AI deployment Currently, I am seeking opportunities where I can contribute to building real-world AI solutions as an AI/ML Engineer, Data Scientist, or Software Developer. If you're working on innovative AI systems or hiring for tech roles, let's connect.

Education

VIT Bhopal University

Artificial Intelligence · (September 2024 - September 2029)

DR. K.K.R. GOWTHAM COLLEGE OF EDUCATION

Intermediate, MPC · (2022 - 2024)
